

Human Services Advisory Board minutes

December 12, 2017

3:00 PM

Present: Stan Capron, Sandy Farrell, Carol Ketchum, Paul Vallee (despite big snow storm)

Paul discussed the information with the group regarding the impact these dollar amounts will have on the overall budget, and that we shouldn't let that concern be the determining factor when deciding on funding. The decisions should be based on the impact the organization has on the Townspeople of Bethel.

The group then reviewed each of the submitted requests, discussed the merits of each and came to a consensus about how much to suggest for funding. There were two organizations that were not funded.

Paul will create a new list, adding the column "2018 requested" to the chart to appear in the Town Report and send to Kelly to put in the packets for the 12-18 Select Board meeting.

Kelly will send copies of the list as well as minutes from this meeting to all members of the HSAB.

Paul will check with Kelly on the best way to advise applicants of their proposed funding.

Respectfully submitted.

Paul Vallee
