

Parks and Public Spaces
March 11th, 2014, 6:00
Cockadoodle Cafe

Present, Ola, Lisa, Mary, Laura, Val, Dave and Edie Aiken, Rosalie Benson

1. Mary Russ, white river partnership.

Grant for River access. Vermont watershed grant monies will hire the VYCC to some work over the summer. Start date to be determined. Next step would be to visit the site with the managers of the crew.can give us some suggestions as to the best option for building the trail. They built the pinch rock access (just pass Welch's on the right) Ola asked if there were permissions that needed to work around the rip rap. Mary said that there may be, but we would have to wait until the site visit to know.

Mary will come up with next steps, and a rough time frame to submit to the select board. She will email it to us for approval, and then schedule a time to present to the select board.

2. Green up day

Ola would like to contact a point person in each neighborhood to organize their neighbors for the clean up.

She has two barrels from the recycling center, that the art students are decorating them for recyclables.

The state is not sponsoring green up day after this year.

First Saturday in May.

It was suggested that if the daffodils come up at the common, we order from the same company, and put some more bulbs in at Peavine

Park. The committee agreed.

Meeting adjourned at 6:45.

Respectfully submitted,

Lisa Campbell
